

Wedding Services

Bulk Botanicals

DIY brides can buy our locally and sustainably grown flowers and plants in bulk to use in decorating their special day. We will do our best to accommodate selected colors and flowers, but we are unable to guarantee them. You will be assured you're getting the freshest and most vibrant seasonal botanicals around! Flowers are typically sold by the 10 stem bunch and range in price from \$5-\$20. There is a minimum order of \$300 to receive our bulk pricing. Bunches are available for pick-up at our studio in Philadelphia on the Thursday before your wedding.

À La Carte

This option is a great choice for brides on a budget who still want a professional designer by their side. Let Love 'n Fresh create your "wear and carry" items {bridal bouquet, bridesmaid bouquets, boutonnieres, corsages, etc} while you take care of the reception decor. There is no minimum order and À La Carte services work great in combination with our Bulk Botanicals option. Rest easy knowing you are getting gorgeous professional floral designs for your most-photographed elements without the stress of creating them yourself just hours before your walk down the aisle. Items are available for pick-up the evening before your wedding.

Full Service

Like any florist, we offer full service attention for your special day. Unlike other florists, we only use flowers grown locally with organic practices, usually from our own fields. We also have a wide selection of unique rental items, many vintage and one-of-a-kind, so you don't have to worry about tracking them down yourself. Our rustic birch chuppah is a popular request. We focus on being flexible, creative and supportive with all your floral decor needs. We transport and set up all your floral elements and stay to help you with any last minute needs, giving you peace of mind and a chance to breathe deeply before that butterfly-inducing walk down the aisle. Book early to save your date!

Love 'n Fresh Flowers

:: from seed to centerpiece ::

a petite, sustainably managed, urban flower farm and floral design studio in Philadelphia dedicated to creating textural floral art exclusively with locally grown flowers

---	---------

Engagement Photo Shoot Flowers

This unique service provides a lovely hand-tied bouquet and any additional floral and vintage props desired to personalize your engagement shoot.....\$40-200

The listed prices are typical of our designs. We are always open to new creative ideas and take the time to price them individually so you are assured the best value.

Full service weddings have a minimum of \$2500. This minimum is set to ensure that you get the best quality service and designs for your special day since it is challenging to do a large wedding's floral decor for less.

However, we do make exceptions for intimate weddings of 75 guests or less.

A \$500 non-refundable deposit reserves your date.

Love Notes

"Thanks, Jennie, for everything. Yours was the perfect touch in every way and your generosity of your time and attention to detail were so very appreciated. I loved all your little special touches - on the placecard table, in the bathrooms, the picnic blankets. The bouquets were exquisite. I look forward to staying in touch with you for any and all flower needs I might have and will eagerly and happily refer my friends to you."
Connie {mother of the bride}

"You were completely, utterly and totally AMAZING - everyone thought your work was awesome (and we've been buying your flowers from the co-op too...we just can't get enough). I can't believe how well you matched our style and energy and the chuppah was gorgeous. We loved being able not only to have our wedding in Philly, but get to bring what we love so much about the natural beauty of the area inside with us for the wedding."
Isabel {bride}

"Jennie - The work you do with plants/flowers is truly amazing. The flowers set the tone and everyone knew that they were grown just for us and loved it!! Thank you for being part of our wedding; it wouldn't have been the same without you!! I can't believe how beautiful everything was; I was so happy!!! Thank you so much for really creating a beautiful décor."
Alexis {bride}

"Thank you so much for all of the incredible flowers, signs, vintage things and photos. Everything was so perfect. You captured our vision perfectly and then added so many amazing extras. We loved your contributions and I am so glad we found you. I hope you will keep in touch and if there is ever anything I can do for you, I hope you will reach out. Again many thanks for all of your hard work and creativity."
Lauren {bride}

"I can't thank you enough for the wonderful job you did. You were a pleasure to work with! A few guests have already asked "who did the flowers" and I of course gladly answered! If I ever need flowers, you are the one!"
Cathy {mother of the bride}

"The centerpieces you did for our dinner at Longwood far exceeded my expectations—I was counting on fresh and lovely and I got that plus spectacular in a wholesome celebrate-the-earth way!"
Marilyn {event coordinator}
